PREPARING FOR THE STRIKE

BOTH SIDES FIRM AND PRESIDENT URGES POSTPONEMENT

Congress Has No Authority To Prevent Railroad Strike Say the Leading Lawyers

(By Associated Press.)
WASHINGTON, August 30.—With both sides making last hour preparations for the railroad strike next Monday, President Wilson turned all his influence toward persuading the brotherhood leaders to postpone or rescind the strike order until Congress had opportunity to act. There were intimations that should the labor leaders continue firm, the president even might make a public appeal to the railway workers themselves to direct their leaders to postpone it. Despite denials that the president had asked them to postpone the

strike, there is evidence that such was the case. The feeling prevails that a way will be found to avert a walkout.

Brotherhood leaders, however, reiterated that no power except a satisfactory settlement would avert a strike.

U.S. CRUISER ASHORE AND A TOTAL LOSS

Memphis, Flagship of South Atlantic Squadron, Wrecked on Dominican Coast

(By Associated Press.)
WASHINGTON, August 30.—Rear Admiral Pond, at San Domingo City, cabled the Navy department last night that the armored cruiser Memphis, swept upon the rocks by a heavy sea in the harbor there yesterday, would be a total loss, and although it was expected all on board would be saved, 20 men returning to the ship from shore leave in a motor boat had been drowned.

The United States cruiser Memphis formerly was the armored cruiser Tennessee. Her name was changed May 25 last. Recently she has been doing duty in San Domingo waters in connection with the revolution. The Memphis is of 14,500 tons and has a horsepower of 23,000. Her complement is 590 men. She is the flagship of the cruiser force of the United States Atlantic fleet. Captain E. L. Beach was in command.

The message follows: "Terrible weather in harbor. Memphis ashore. Crew being disembarked. More than 20 men lost with motor boat. Castine safe at sea."

Admiral Benson explained that the construction of the Memphis is such that she probably would withstand a

SANTA FE CUTS OFF SHIPMENTS

(By Associated Press.)
TOPEKA, Kan., August 30.—At least one third of the freight business of the Atchison, Topeka & Santa Fe railroad will be cut off as one of the results of the embargo declared yesterday against shipments of perishable goods and live stock.

ARTILLERYMEN COMING HOME

(By Associated Press.)
WASHINGTON, August 30.—National guardsmen will take the place of 28 companies of Coast artillery, aggregating 6000 men, now on the border, who have been ordered to their posts in eastern and western departments.

Under the heading of "perishable goods," it was explained, are included fresh meats, butter, eggs, vegetables, fruits and ice. The company also refuses to be responsible for delay in other freight shipments.

JOHNSON LEADS WITH 11,000

(By Associated Press.)
SAN FRANCISCO, August 30.—W. F. Nixon, vice chairman of the Booth campaign, conceded Booth's defeat. He places Johnson's majority at between 10,000 and 12,000.

STEAMSHIP SUNK WITH TWENTY MEN

(By Associated Press.)
NEW ORLEANS, August 30.—At least 20 of the crew of the American steamer Admiral Clark, from Port Arthur for Buenos Aires, were drowned when the steamer foundered in a tropical hurricane on August 16. Six survivors arrived on the Swedish bark Tana. Most officers were from Seattle.

The Johnson forces counted upon a considerable reduction of their first large majority, but expressed a lively interest in the exceptional cut which later figures made.

The governor said: "We have done the impossible, politically. With 300,000 of our best citizens disfranchised, with all the bosses, big and little, in solid phalanx arrayed against us, we went with the rank and file of the Republican party, and it is marvellous how the rank and file responded."

R. R. CONDUCTOR IS GIVEN INJUNCTION

Employee of Union Pacific Enters Court and Gets Restraining Order Against O. R. C.

(By Associated Press.)
OMAHA, August 30.—Judge Sears, of the Douglas county district court, issued an order today restraining the general and local officials of the Order of Railway Conductors from calling or enforcing a strike on the

lines of the Union Pacific. The order was issued on petition of Edwin Hamilton, a Union Pacific conductor and member of the order of conductors, who declares that he and many other employees are eager to continue working.

GERMAN SPY BREAKS OUT OF ATLANTA JAIL

(By Associated Press.)
ATLANTA, Ga., August 30.—Robert Fay, said to have been a former Germany army officer, convicted of conspiracy against the United States in connection with munitions plots in New York, escaped from the federal prison here late yesterday, with William Knobloch, another prisoner.

Fay, who entered the prison June 23 to serve eight years, and Knobloch, sentenced at New York on May 9 to serve 18 months for using the mails to defraud, had been doing electrical repair work at the prison. Late yesterday afternoon they walked by a guard at one of the gates, saying they were going outside to repair some lights. When their escape was discovered shortly before dark an alarm was sent out and guards searched the countryside about the prison, which is in the suburbs of Atlanta.

CHICAGO MEN URGE ARBITRATION

(By Associated Press.)
CHICAGO, August 30.—Resolutions protesting against the surrender of the principle of arbitration in negotiations between railroad and other public utilities and their employees were adopted by 300 manufacturers and representatives of commercial and industrial organizations of the middle west here today.

SHORTAGE OF MEATS FAMINE IN EAST SURE

(By Associated Press.)
CHICAGO, August 30.—The nation faces a shortage of meats in the event of a railroad strike. Officials of the stock yards, the world's largest cattle market, said the present supply would last only three days. The embargo placed by railroads on shipments of cattle and other perishables will probably cripple the packing industry of the country.

(By Associated Press.)
NEW YORK, August 30.—The police are prepared, if need arises, to assume virtual control of the food and fuel supply. In the event of a railroad tie-up it is estimated a food famine will be here in a week. Restaurants and hotels are storing food. Authorities and milk dealers are planning to serve the babies first.

ARGUMENTS SET FOR THURSDAY

(By Associated Press.)
WASHINGTON, August 30.—The Senate interstate commerce committee adopted a resolution this morning providing for hearings on the proposed railroad legislation in the impending crisis, beginning Thursday. Railroad officials, brotherhood officers and representatives of shippers are invited to appear, each side to be given three hours to discuss their views of the legislation proposed by the president to prevent a strike or to operate trains in the event of a strike.

WARNING ISSUED TO ALL PASSENGERS

(By Associated Press.)
SAN FRANCISCO, August 30.—The following instructions were telegraphed by the Southern Pacific company today to all division superintendents: "Please instruct all passenger and ticket agents by wire at once to notify passengers unless they can reach their destinations by Sunday night, Sept. 3, they may be subject to perplexing delays."

RUMANIA JOINS WITH RUSSIA IN HUNGARY

Marching Through Enemy Country After Capturing Principal Carpathian Passes

(By Associated Press.)
LONDON, August 30.—Hungarian war correspondents report that the Rumanians have begun bombardment of the Danube towns of Rustchuck in Bulgaria, and Ozova, in Hungary.

(By Associated Press.)
PETROGRAD, August 30.—The Russians have captured Panker mountain, in the Carpathians, on the Hungarian border.

A Bucharest dispatch says Rumanians operating with Russians have captured the principal passes of the Carpathians. For twelve hours the Rumanians marched uninterruptedly on Hungarian territory, meeting only weak resistance.

(By Associated Press.)
PARIS, August 30.—Severe fighting is reported on the Macedonian front. The War office says the French gained west of the Vardar river. The Serbians have repulsed the Bulgarians west of Lake Ostrovo.

PRICE PAID RUMANIA BY ENTENTE ALLIES

(By Associated Press.)
LONDON, August 30.—The final declaration of war ends a long, stubborn contest for Rumanian aid. Overtures were made from the beginning of the war by both sides, but with Bulgaria's entrance into the conflict, interest in Rumania's intentions were eclipsed until her foot products became the object of contention.

When the entente powers determined to embark on an extensive military enterprise from Saloniki, Rumania bulked still larger on the diplomatic horizon. The central powers redoubled their efforts to persuade her to remain neutral, while the entente nations busied themselves in persuading Russia to make the concessions Rumania required. This price is believed to have been a promise of large slices of Transylvania and Bessarabia. Entente diplomats express unconcealed pleasure over the improvement in the Greek situation. It is not expected that King Constantine and ex-Premier Venizelos will have any difficulty in establishing an understanding, as the diplomats believe the Greek king is not pro-German, but has been honestly pursuing a course he thought best to keep his country out of the war.

TONOPAH IS WELL SUPPLIED IN CASE OF RAILROAD STRIKE

Tonopah is reasonably secure from distress for the period of 30 to 60 days. All the restaurants and grocery stores are well supplied with staples and none of the owners expresses the least fear of being unable to meet an ordinary demand. In the matter of vegetables, eggs and butter some difficulty may be experienced in renewing supplies, but the privation may be overcome by resorting to jams and jellies. The supply of canned goods is equal to a normal demand for a period of 60 days. The stock of flour will last for the same time. There is also a good stock of sugar, but the grocers say this will be hoarded and only sold in 5 and 10 pound lots.

While the east is likely to suffer from a shrinkage of beef, mutton and pork, no western town will share that experience, as the difficulty of transportation will keep the stock at home and within easy reach of the principal points of Nevada, where stock may be driven on the hoof. Tonopah is independent of the big packing houses, as most of the meats sold here are killed in Goldfield.
